

TALKABILITY® - THE HANEN PROGRAM FOR PARENTS OF VERBAL CHILDREN ON THE AUTISM SPECTRUM

Equipping You With Practical Everyday Strategies To Help Your Child Reach Their Full Communication Potential

Verbal children with Autism Spectrum Disorder or a Social-Communication Disorder often still face special communication challenges and may find it difficult to:

- Have conversations with others.
- Play with children their own age.
- Talk about things that interest someone else.
- Change a routine without becoming frustrated.

If you've noticed more than one of these difficulties in your child, the *TalkAbility*® program can help. Specifically designed for parents of verbal children ages 3-8 with social communication difficulties, the *TalkAbility*® program teaches parents practical ways to help their child learn **people skills**.

The *TalkAbility*® program consists of:

- 8 parent training sessions in small, personalized groups.
- 1 pre-program consultation for you and your child .
- 4 individual video feedback sessions of you interacting with your child & of your child playing with another child so you can 'see' what is helping & what you can do.

Program Dates: The program will run over **13 weeks** commencing **4th March 2019**

The 8 parent training sessions will be held Monday evenings from 7pm - 10pm on the following dates: March 4, 11 & 25, April 1, May 6, 20, & 27 and June 17 2019.

Location: EarlyEd, 3 Cunningham Street, North Sydney.

**Families can use NDIS, Medicare, HCWA/Better Start, private health insurance or private funding to cover the costs for the full 12 week program.*
