

BILLY

“Billy did not have a specific diagnosis...”

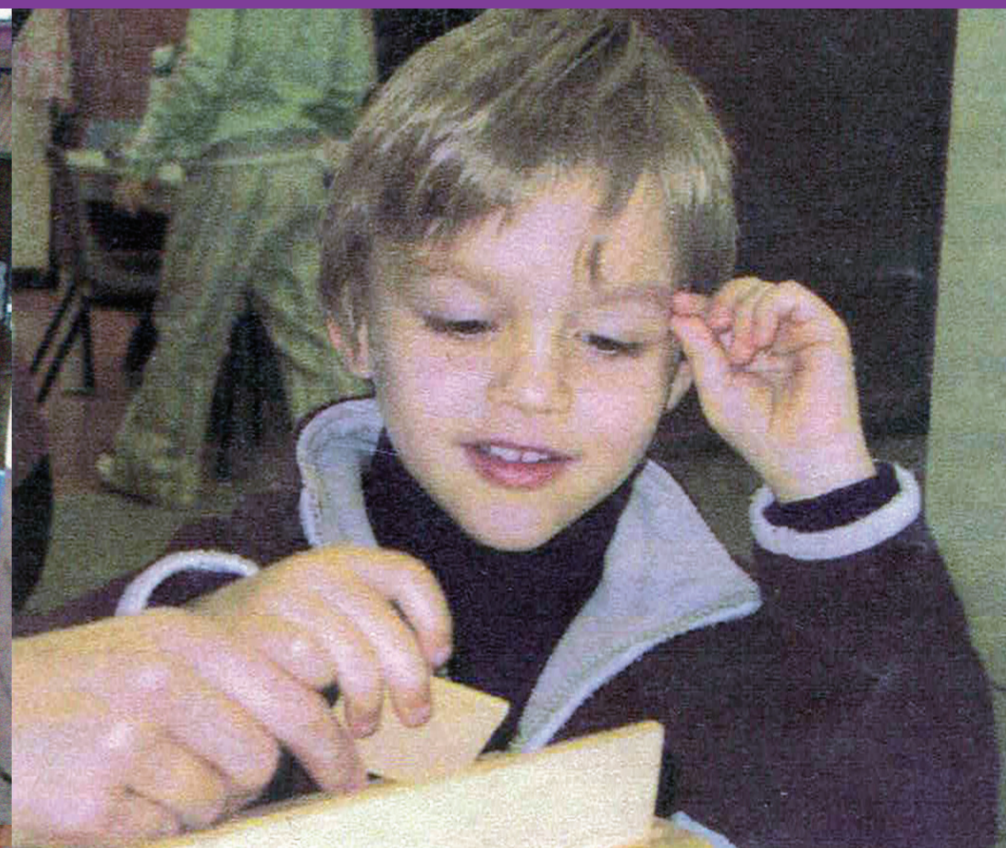

Billy is now in year 12, doing Life Skills HSC, at Northern Beaches Secondary College NBSC Cromer Campus.

When he was with EarlyEd he was involved in a supported weekly playgroup and readiness for school program.

Billy did not have a specific diagnosis when we started. EarlyEd was the first social group we had where others shared a similar story.

We had a fabulous weekend away at Shoalhaven Heads with 3 or 4 other families including one with a child with ASD, which was a great help for me.

Kelly, Billy's mother
