

KAUMUDI

Kaumudi was born in May 2003 and was involved with early intervention at EarlyEd, North Sydney in 2006.

It was an amazing support to us as we had just adopted Kaumudi and brought her back to Australia from India.

Kaumudi had educational and physical intervention during her time at EarlyEd. The professional support and the community that EarlyEd provided – by the staff and the other families meant that we were cared for in a holistic way – both parents and children. It helped us focus on the priorities and it was a place where our children were safe and accepted. They learnt through play and had fun.

Now Kaumudi is in year 10.

- Tracey, Kaumudi's Mother

“It helped us focus on the priorities and it was a place where our children were safe and accepted.”
